FLÂNEUR Rider

FLÂNEUR is suitable as part of an audio-visual performance event, algorave, club night or concert. It is best experienced in low light conditions where the projection is the main source of light.

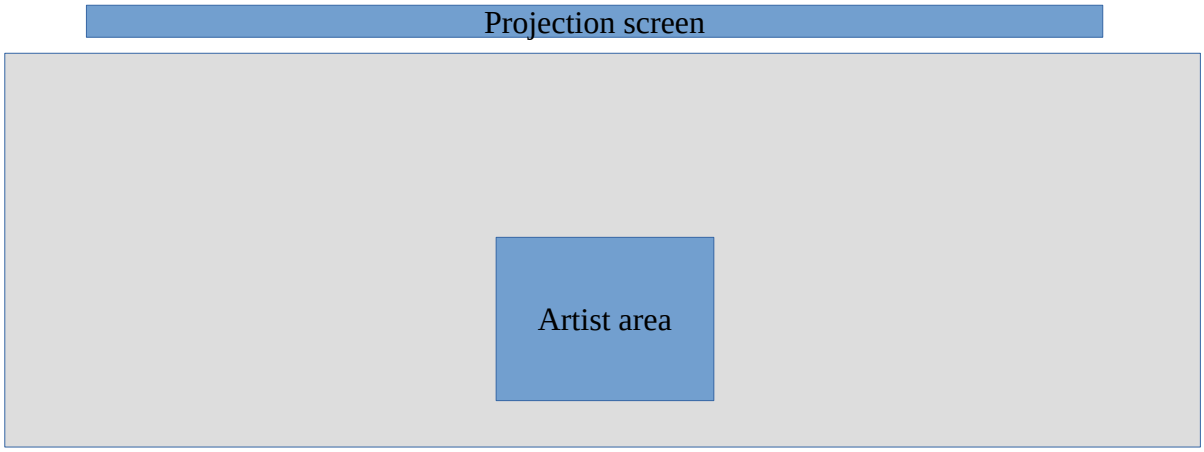
Performance duration: ~22 min (flexible)

Audio setup:

- direct output from a laptop (3,5mm stereo jack)
- stereo PA

Video setup:

- projector (resolution ideally at least 1920x1080)
- projection onto a screen/wall behind the artist on stage (screen at least 2m wide)
- output: HDMI (or DisplayPort over USB-C)

Other:


- **IMPORTANT:** WiFi or wired internet connection (at least 8 Mbit/s)
- 1x electric socket
- if standing, table in front of the projection screen
- otherwise, a stage surface suitable for sitting on floor
