Variant 1: Interactive Reading Installation

© Hermetechnics Inc. 2026

Technical specs

Format

- Frontal projection on white horizontal surface (approx. 125 x 200 cm, can be adjusted)
    - idle state: the currently shown Arcanum as an infinite video loop
    - active reading state: latent space interpolation “walk” through the drawn Arcana
    - rear projection possible but frontal preferred (due to casting the viewer’s shadow when near the altar)
- Altar including touchscreen to trigger the reading
    - placing hand on touchscreen selects 3 Arcana based on the touch points position
    - Arcana are rendered in the projection as a “latent walk” video for 60 seconds

Equipment

- Projector
    - min. resolution: 1080p
    - min. Ansi-Lumen: 3000
    - aspect ratio: 9:16 (portrait orientation)
- Tablet with touchscreen
    - Browser running ToLS web app in Kiosk mode
    - Running iOS 26+ or Android 16+
    - Durable stand & case
    - Power supply
- Projection computer
    - TBC, example: Mac Mini M4
    - can be provided by artists if preferable
- Altar/Table
    - approx. dimensions: H = 60cm, W = 125cm, D = 50cm
    - table width >= projection width
    - base tablecloth: plain matte white (linen/cotton), reaching floor on all sides
    - upper tablecloth: provided by artists, TBC
- Altar decorations
    - ~20x battery-powered electric candle (~10x large, ~10x small/tea light)
    - 2x large bouquet of dried flowers (wildflowers/local grassland)
    - 10x small batch of dried flowers
    - incense, printed Tarot cards, etc. (provided by artists)

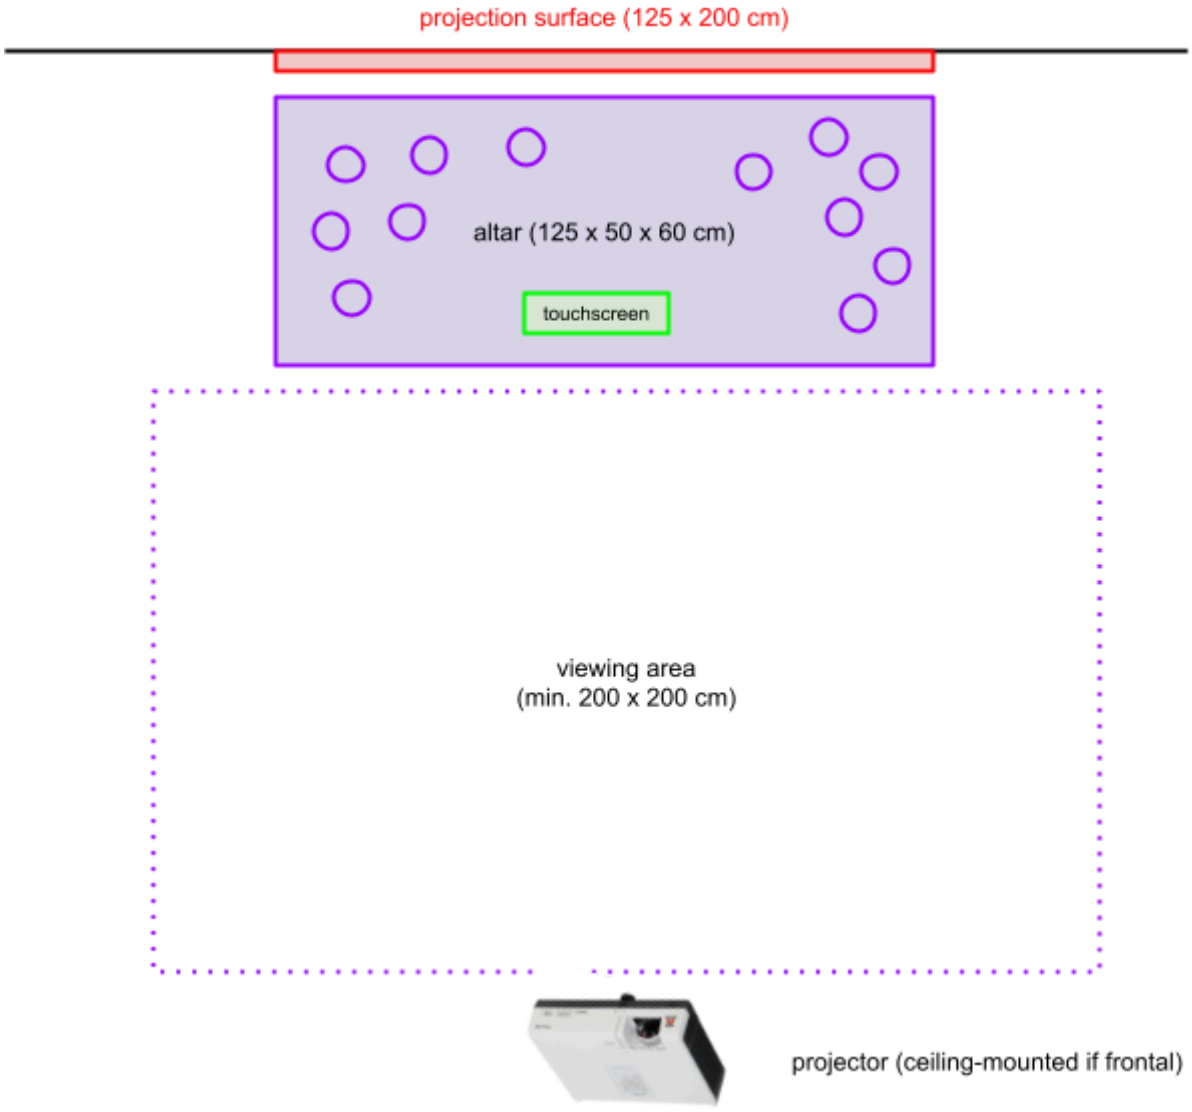
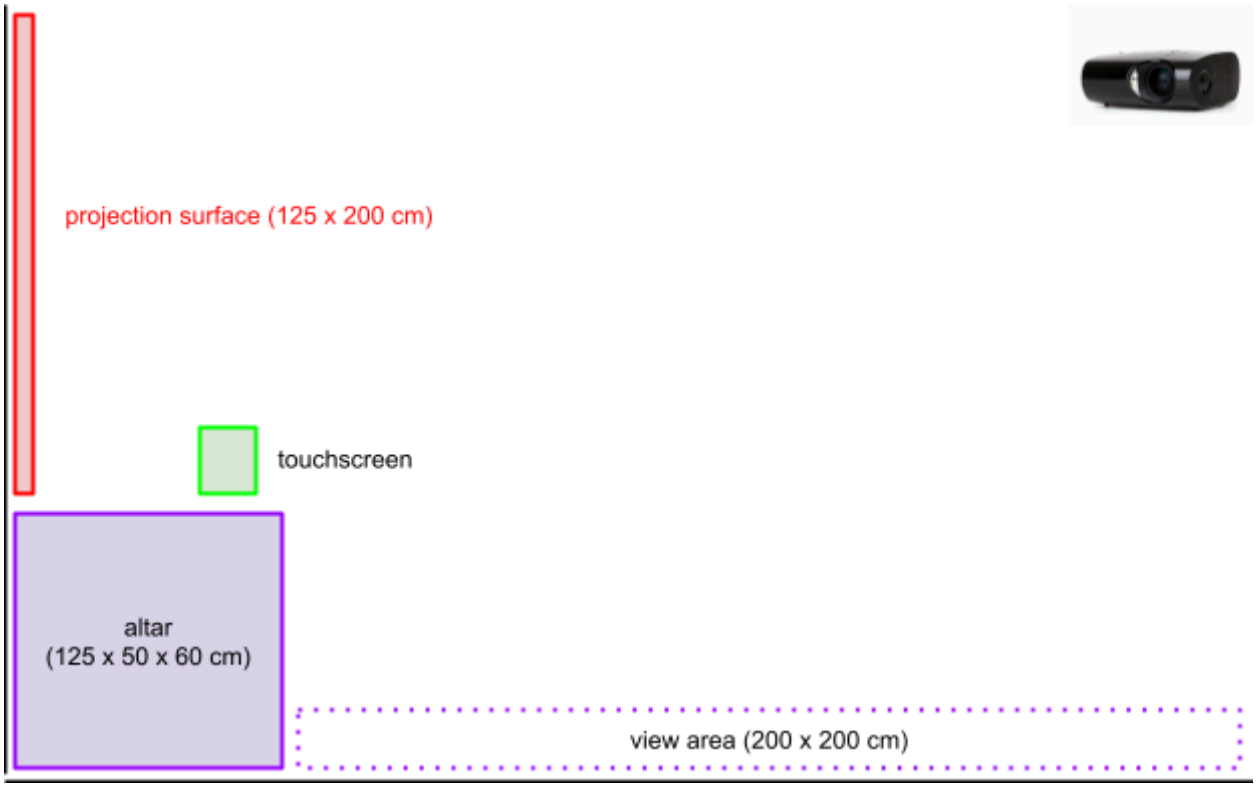
Diagram - top view

Altar decorations denoted as circles - see photos above for possible arrangement



© Hermetechnics Inc. 2026

Diagram - side view



Power requirements (excl. projector)

- 2x Type A or B sockets available under the altar table
- Power draw
    - touchscreen - approx. 30W (depending on model)
    - projection computer - approx. 100W (depending on model)

Connectivity

- ad-hoc WiFi network on projection computer
- wireless or wired connection between projection computer and projector

Light conditions

Residual environmental light only on projection surface, altar and view area

Variant 2: Static Video Installation

Technical specs

Format

- Wall-mounted screen displaying a continuous “latent space walk” video loop
- Altar displaying printed cards, arranged in an Alejandro Jodorowsky-style mandala

Equipment

- Wall-mounted LCD/LED screen
    - mounted vertically (portrait)
    - min. resolution: 1080p
    - min. size: 40” (approx. 60 x 100 cm)
    - capable of playing H.264 video (or connected to suitable media player device)
- Altar/Table
    - approx. dimensions: H = 60cm, W = 125cm, D = 50cm
    - table width >= screen width
    - base tablecloth: plain matte white (linen/cotton), reaching floor on all sides
    - upper tablecloth: provided by artists, TBC
- Altar decorations
